OVERDRIVE/LIBBY

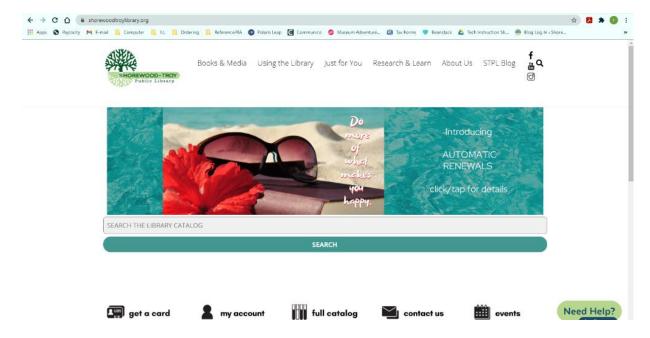

SHOREWOODTROYLIBRARY.ORG

650 Deerwood Drive, Shorewood, IL | 815.725.1715

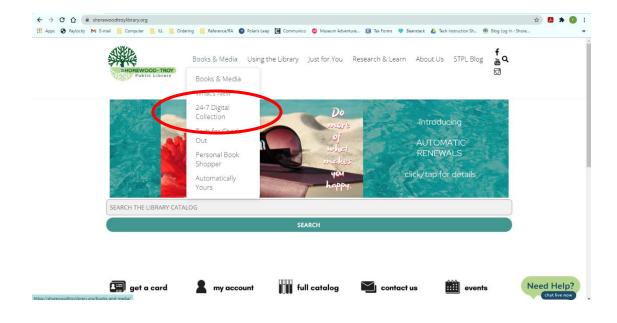

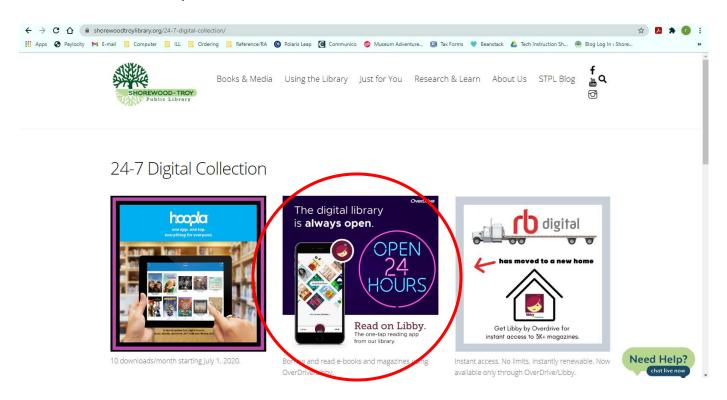

1. Start at the library website www.shorewoodtroylibrary.org

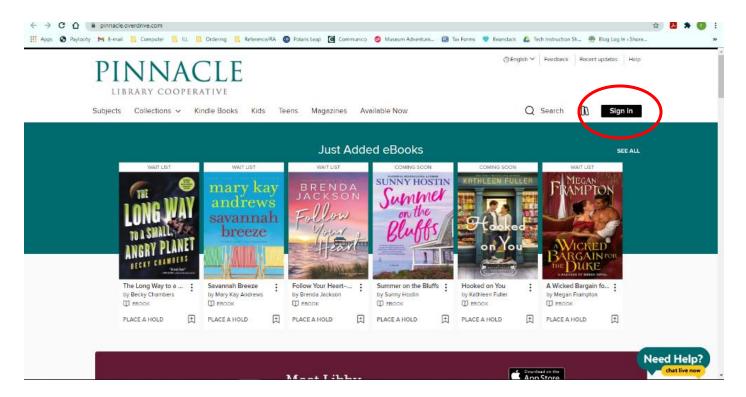

2. Hover over "Books & Media" and click on "24-7 Digital Collection".

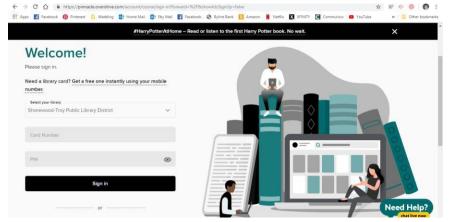

3. Click on the link for Overdrive/Libby. It is currently the center option, that says "Open 24 Hours" and "Read on Libby".

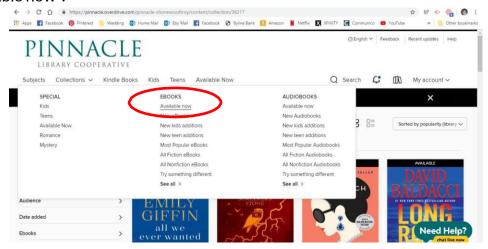

4. In the upper right corner, we are going to click the "Sign In" button.

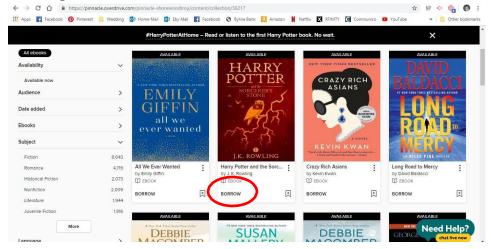

5. Here you will select the library that your card belongs to (it will say if your card is from Shorewood, Joliet, Plainfield, etc. on your physical library card), enter your card number (with <u>no spaces</u>), and enter your PIN (the last 4 numbers of your library card number, unless you have changed it).

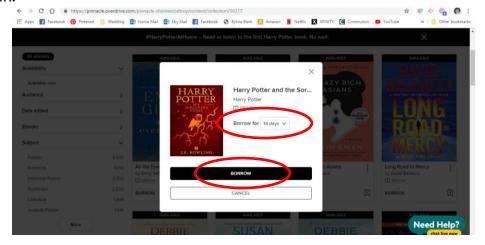

6. You are now logged in, and can select a title. Notice some of the "Just Added" titles have a wait list. Follow our instructions on Overdrive Holds for more information on those. We are going to find a title that is currently available, so we are going to select "Collections" and under EBOOKS select "Available now".

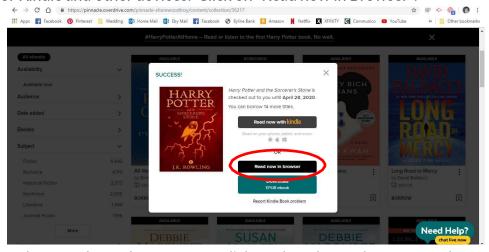

7. All available ebooks will pop up. You can always narrow down by subject, date added, and more on the left hand side of the screen. If you see a title you would like to check-out, simply click the "Borrow" button underneath the cover image. If you would like to know more about the title, click on the cover image.

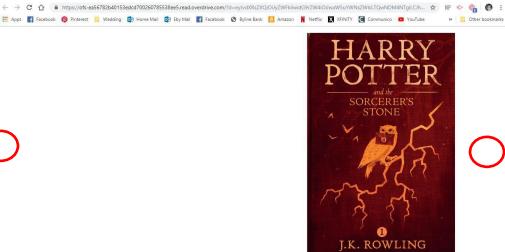

8. Once you click on "Borrow", a new window will pop up asking you how long you would like to check-out your item for. You can choose from 7, 14, or 21 days. After that time period, your item will automatically be returned. After you have decided how long you would like the item, click "Borrow" again.

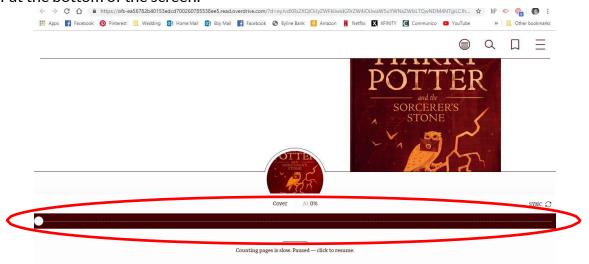

9. From here, you will select how you would like to read your book (or listen if you check out an audiobook). We are going to walk through how to read on the computer. We also have instructions for Kindle and other devices. Click on "Read now in Browser".

10. Your book is ready to read! To change pages, click on the edge of the screen. There are no icons or buttons, but it will turn the page.

11. If you click in the center of the screen, some additional options will pop up, including a reading tracker at the bottom of the screen.

12. When you are done reading, simply close out the browser or the tab you are in, and Overdrive will keep track of where you left off. Have fun reading!
